Our Name

Vue was inspired by the optimal "view" matched between Ground Based Radars and a given SCC. It is this window of opportunity that allows us to see and improve our efficiency and accuracy in data collection.

Vue is more than just a name, it's what we provide.

The Mark

Looking beyond the horizon and into space. The negative space in the arc represents the 30º look angle that allows for an unobstructed view.

It is bold, precise, and dynamic

Angle bracket is used in coding and mathematics. Represents calculation and execution.

It is also a simple illustration of an eye

The **arc** symbolizes the horizon or a trajectory of an object
